Joseph E. Jones

Attn. Harold F. Staub

Government Employees Health
Association Identification Cards

We have reviewed the proposed identification cards that were submitted by this group and would suggest the following changes:

1. Removal of the words "when in good standing" from the first sentence in the card. This removal would correspond with a similar deletion Mr. Irving Kator requested that we make in the master contract. ✓
2. The card for Option 1 would seem to indicate that the hospital ~~X-rays~~ are limited to \$202.50 when actually this is not the case since we pay in addition to the \$202.50 80% of the balance up to \$5,000. ✓
3. Your informative memorandum of April 7, 1960, indicated that the Civil Service Commission would require that all such enrollment cards refer to the fact that the person is covered under Public Law 86-382 and that it should include his name, Civil Service identification number, option and whether or not he has family or individual coverage. ✓

STAT

Please discuss these items with Harold, and forward me a report of your discussions.
